**HIGHLY ERODIBLE LAND AND WETLAND CONSERVATION DETERMINATION**

Name Address:	[REDACTED]	Request Date: 7/9/2015	County: LaSalle
Agency or Person Requesting Determination:	FSA	Tract No: 511	FSA Farm 22 No.:

**Section I - Highly Erodible Land**

Is a soil survey now available for making a highly erodible land determination?	
Are there highly erodible soil map units on this farm?	

Fields in this section have undergone a determination of whether they are highly erodible land (HEL) or not; fields for which an HEL Determination has not been completed are not listed. In order to be eligible for USDA benefits, a person must be using an approved conservation system on all HEL.

Field(s)	HEL(Y/N)	Sodbust (Y/N)	Acres	Determination Date

The Highly Erodible Land determination was completed in the

**Section II - Wetlands**

Fields in this section have had wetland determinations completed. See the Definition of Wetland Label Codes for additional information regarding allowable activities under the wetland conservation provisions of the Food Security Act and/or when wetland determinations are necessary to determine USDA program eligibility.

Field(s)	Wetland Label*	Occurrence Year (CW)	Acres	Determination Date	Certification Date
1	FW		0.5,0.5,0.5,0.8,0.9	1/19/2016	4/8/16
1	PC/NW		71.8	1/19/2016	4/8/16

The wetland determination was completed in the office. It was mailed to the person on 1/20/2016 4/8/16

Remarks:

I certify that the above determinations are correct and were conducted in accordance with policies and procedures contained in the National Food Security Act Manual.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD). To file a complaint of discrimination, write USDA, Assistant Secretary for Civil Rights, 1400 Independence Avenue, S.W., Stop 9410, Washington, DC 20250-9410, or call toll-free at (866) 632-9992 (English) or (800) 877-8339 (TDD) or (866) 377-8642 (English Federal-relay) or (800) 845-6136 (Spanish Federal-relay). USDA is an equal opportunity provider and employer.

## \*DEFINITIONS OF WETLAND LABELS

AW	<u>Artificial Wetland</u> : An area that was formerly a non-wetland area under natural conditions but now exhibits wetland characteristics because of the influence of human activities. These areas are exempt from the Food Security Act of 1985, as amended. This label includes irrigation induced wetlands.
CC	<u>Commenced Conversion</u> : A wetland, farmed wetland, farmed wetland pasture, or converted wetland on which the conversion began but was not completed before December 23, 1985, was approved by FSA to continue, and the conversion was completed by January 1, 1995.
CPD	<u>COE Permit with Mitigation</u> : A converted wetland authorized by a permit issued under Section 404 of the Clean Water Act. Production of agricultural commodities is allowed subject to conditions of the permit.
CMW	<u>Categorical Minimal Effect</u> : A wetland that meets specific categories of conversion activities that have been determined by NRCS to have minimal effect, individually and cumulatively, on the functions and values of the wetland and the wetlands in the watershed.
CW	<u>Converted Wetland</u> : A wetland converted between December 23, 1985, and November 28, 1990. Production of an agricultural commodity or additional manipulation of these areas will yield USDA benefit ineligibility. Also, these areas are wetlands converted after December 23, 1985, by a county, drainage district, or similar entity. For these instances, production of an agricultural commodity or forage for mechanical harvest or additional manipulation will cause ineligibility for USDA program benefits.
CW+year	<u>Converted Wetland + (year the conversion occurred)</u> : A wetland converted after November 28, 1990, where the USDA program participant is ineligible for benefits until the wetland is restored or mitigated unless an exemption applies.
CWNA	<u>Converted Wetland Non-Agricultural Use</u> : A wetland converted after November 28, 1990, to a use other than agricultural commodity production. Label not used for certified wetland determinations completed after 2/2008.
CWTE	<u>Converted Wetland Technical Error</u> : A wetland converted or commenced after December 23, 1985, based on an incorrect NRCS determination. This label does not apply to obvious wetlands as defined in the National Food Security Act Manual.
FW	<u>Farmed Wetland</u> : A wetland that was manipulated and planted before December 23, 1985, but still meets inundation or saturation criteria. These areas may be farmed and maintained as documented before December 23, 1985, as long as they are not abandoned (i.e., management or maintenance for commodity production ceased for 5 consecutive years).
FWP	<u>Farmed Wetland Pasture or Hayland</u> : A wetland that is used for pasture or haying, was manipulated and planted before December 23, 1985, but still meets the inundation or saturation criteria. These areas may be farmed and maintained as documented before December 23, 1985, as long as they are not abandoned (i.e., management or maintenance for commodity production ceased for 5 consecutive years).
MIW	<u>Mitigation Exemption</u> : A converted wetland, farmed wetland pasture of which the acreage, functions and values lost have been compensated for through an NRCS-approved mitigation plan.
MW	<u>Minimal Effect Exemption</u> : A converted wetland that is exempt from the wetland conservation provisions of the Food Security Act of 1985, as amended, based on an NRCS determination that the conversion has or will have a minimal effect, individually and cumulatively, on the functions and values of the wetland and the wetlands in the watershed.
MWM	<u>Mitigation Site</u> : The site of wetland restoration, enhancement, or creation serving as mitigation for the mitigation exemption (MIW) site.
NI	<u>Not Inventoried</u> : An area where no wetland determination has been conducted. Label not used for certified wetland determinations completed after 2/2008.
NW	<u>Non-Wetland</u> : An area that does not contain a wetland. Also includes wetlands converted before December 23, 1985, but a commodity crop was not produced and the area does not meet wetland criteria (not been abandoned).
PC	<u>Prior-Converted Cropland</u> : A wetland converted to cropland before December 23, 1985, and as of December 23, 1985, was capable of being cropped and did not meet farmed wetland hydrology criteria. These areas are not subject to the wetland conservation provisions of the Food Security Act of 1985, as amended, unless further drainage manipulation affects adjacent wetlands.
PC/NW	<u>Prior Converted Cropland/Non-Wetland</u> : An area that contains both PC and NW.
TP	<u>Third-Party Exemption</u> : A wetland converted after December 23, 1985, by a third party who is not associated with the participant, and the conversion is not a result of a scheme or device. A third party does not include predecessors in interest on the tract, drainage districts, or other local government entities.
W	<u>Wetland</u> : An area meeting wetland criteria that was not converted after December 23, 1985. These areas include farmed wetlands and farmed wetland pasture that have been abandoned.
WX	<u>Manipulated Wetlands</u> : A wetland manipulated after December 23, 1985, but the manipulation was not for the purpose of making production possible and production was not made possible. These areas include wetlands manipulated by drainage maintenance agreements.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. [REDACTED]

CERTIFIED MAIL

[REDACTED]

The Food Security Act of 1985, as amended, requires any person who plants an agricultural commodity on a wetland converted after December 23, 1985, or converts a wetland after November 28, 1990 for the purpose of making production of an agricultural commodity possible, to be determined ineligible for many US Department of Agriculture (USDA) program benefits conditioned upon compliance with provisions set forth in USDA regulation 7 CFR Part 12 §12.4.

The 2014 Farm Bill connected producer eligibility for Federal crop insurance premium subsidy to compliance with the wetland conservation provisions. Eligibility for most USDA programs is lost for any wetland conversions that have occurred after December 23, 1985. However, only wetland conversions that occur after February 7, 2014, result in ineligibility for Federal crop insurance premium subsidy.

On January 19, 2016, the Natural Resources Conservation Service (NRCS) conducted a wetland determination on Tract Number 511 in LaSalle County, Illinois. Based on that field investigation a preliminary technical determination was made on January 19, 2016 that:

- Field number 1 shown in Section II of the attached NRCS-CPA-026E "Highly Erodible Land and Wetland Conservation Determination" form, contain wetlands and/or wetland violations with the labels/certifications as indicated.
- These areas met the criteria of hydric soils, wetland plants and soil or surface wetness.

On February 8, 2016 you requested reconsideration of the preliminary technical determination. On February 23, 2016 a meeting was held with you to discuss the determination and allow you to present additional information. A field visit was also made by a Natural Resource Conservation Service (NRCS) technical specialist on February 23, 2016 to conduct a field investigation on the tract and gather additional information. After reviewing all of the available information related to the wetland determination, and your request for reconsideration, I have found that there are wetlands on the tract that meet wetland criteria set forth in the USDA regulation, 7 CFR Part 12.

As required by regulation and NRCS policy, I am making the final technical determination that the preliminary technical determination dated January 19, 2016 is correct and is now the final technical determination.

This wetland determination/delineation has been conducted for the purpose of implementing the wetland conservation provisions of the Food Security Act of 1985. This determination/delineation may not be valid for identifying the Army Corps of Engineers' (COE) Clean Water Act jurisdiction for this site. If you intend to conduct any activity that constitutes a discharge of dredged or fill material into wetlands or other waters, you should request a jurisdictional determination from the local office of the COE prior to starting the work.

Helping People Help The Land.

An Equal Opportunity Provider and Employer

The following are your appeal rights under the USDA Administrative Appeals Process, as provided by the NRCS Appeals Procedures, 7 CFR 614, May 16, 2006, 71 FR28239.

1. **Appeal to the LaSalle County Farm Service Agency (FSA) County Committee**  
11691 North 31st Road  
Ottawa, IL 61350  
(815) 433-0551 x2  
Fax: (855) 705-9692
  
2. **Appeal to the National Appeals Division**  
USDA National Appeals Division  
P.O. Box 68806  
Indianapolis, Indiana 46268-0806  
Phone: (800) 541-0457  
(317) 875-9648  
TTY: (800) 791-3222  
FAX: (317) 875-9674

Requests for appeal of the Final Technical Determination must be made in writing no later than 30 days from the date you receive this letter.

If you are the owner of this tract of land and it is farmed by a tenant, I urge you to discuss this letter with your tenant. Likewise, if you are the tenant of this tract of land, I urge you to discuss this letter with your landlord.

Sincerely,

IVAN N. DOZIER  
State Conservationist
